

Japanese barberry
Berberis thunbergii

Japanese Barberry (*Berberis thunbergii*)

- Small, round, dense spiny shrub, usually 2-3' tall
- Leaves alternate, entire, oval to spatulate. May be green to dark red depending on cultivar and growing conditions
- Flowers small, yellow with 6 petals
- Fruits small, bright red, oblong berries
- Invades forest edges and open areas from escaped landscaping throughout Monroe County

Do Not Use in Landscaping!!
