

Tree of Heaven
(*Ailanthus altissima*)

- Rapidly-growing tree; mature trees can be 80' tall or more
- Leaves are alternate, pinnately compound, 1-4' long; composed of 11-25 leaflets, which are entire with the exception of 1 to several glandular teeth near the base
- Flowers are small, yellow-green, with 5-6 petals, in dense terminal inflorescences
- Fruits are green turning to pink to tan, papery, in clusters; may remain on tree through winter
- Invades forests and open areas throughout Monroe County
